

OUR STORIES

MEET KATHLEEN

ACCOUNT MANAGER

What does your job involve?

I am responsible for making sure that the customers I manage get the best possible service from us. This involves regular reviews of their services, progress meetings about any new projects we're delivering, and helping to solve any issues that crop up. You really get to be seen as a trusted partner by your customers, plus there's a lot of teamwork with other departments in our business, which is fun.

How did you get into the industry?

I have a number of family members who work in the technology sector. Seeing what they have achieved both in business and personally inspired me to take the leap out of my comfort zone and join the world of tech.

What do you love doing outside work?

I love spending time watching my young son develop and grow as a person as well as going to live sport and music events. I'm really interested in experiencing different cultures and was lucky enough to spend time working on charity projects in Africa which I would love to do again at some stage.

What would you advise other young people to do if they want to work in this industry?

There's a great opportunity to develop your skills whilst working within a friendly environment.
