

Deployment Engineer - Top 3 Managed Cloud Computing Company

Location: Glasgow

Vacancy Title

Deployment Engineer- Top 3 Managed Cloud Computing Company

Salary: £28,000 - £35,000 DOE

iomart

iomart Group plc is delighted to offer this opportunity to join one of the UK's leading managed hosting companies. Originally founded in 1998, the iomart Group has evolved to become one of Europe's leading providers of managed hosting, Datacentre and cloud computing, serving over 300,000 customers each day. iomart offers managed hosting solutions for any size or type of business, from a single server to complex managed hosting environments.

Deployment Engineer

Due to continued growth, iomart are looking to extend the Glasgow deployments team by recruiting an additional full time engineer into the team. This is a permanent role rather than a contract.

The deployments team consists of seven deployment engineers who work on individual projects, building out infrastructure to customer requirements, leading customer data and/or application migration into the new infrastructure, as required, and ensuring that the new infrastructure is documented and handed over to support appropriately before the end of the project.

Learning-wise, the majority of learning will be on-the-job. Where required, formal training and help with certification is provided.

Note that, although based in Glasgow, there will be a small amount of travel required from time to time.

Personal Qualities:

- Pleasant interpersonal skills, both at a verbal and at written levels, are required - the role is customer-facing.
- You will need the ability to work both in a team and on an individual basis.
- Self-organisation - you will be assigned to multiple projects simultaneously and are required to manage related information and customer expectations as you switch between tasks.
- Positive attitude with a continuous learning and improvement mindset.

Desired Experience

- Datacentre infrastructure hardware.
- Windows and Linux Server administration (at server and AD level).
- Virtualisation Technology - VMWare etc.
- Network configuration – firewalls, firewalls etc.
- Storage configuration.
- Backups configuration – client, server etc.

- Infrastructure monitoring.

The following experience and/or qualifications would be advantageous:

- Linux Administration - HA Proxy and Brocade Virtual Traffic manager.
- Windows Administration - Active Directory and Group Policy.
- Virtualisation - VMWare VCP qualification.
- Backups - Asigra, Zerto, Avamar/Data Domain or Veeam.
- Networking - Cisco Firewall and/or Switches configuration experience or Cisco CCNA/CCNP qualification.
- Storage - EMC VNX and/or Dell Equallogic.
- Monitoring - Nagios implementation.

What do we offer in return?

- We'll shout you to lunch once a month
- ½ Day off on your Birthday
- Long service benefits
- Breakfast on us every day, including a hot roll on Fridays
- Snacks, drinks and fruit all day, everyday
- Pension
- Share save and childcare voucher schemes
- Supported training and access to an online training portal 24/7

Training & Development

As you can gather, we have a relaxed and friendly working environment but don't be fooled; you will be working with some of the country's best talent and greatest technical experts. We want our people to thrive, prosper and to leave work every day feeling valued and that they have made a difference. Talented, motivated and creative people lie at the heart of our success so we invest heavily in our people and their professional and personal development through our online training portal and Management and Leadership Development Programme.

We look forward to hearing from you
