

Front End Web Developer - Top 3 Managed Cloud Computing Company Glasgow

£24,000 – £30,000 per annum DOE

iomart

iomart is one of the leading providers of cloud computing and managed hosting. Headquartered in Glasgow, iomart employs over 350 talented staff in offices and datacentres across the UK. Originally founded in 1998, it is listed on the London Stock Exchange and specialises in delivering cloud consultancy, facilitation and digital transformation to ISVs, SMEs, enterprises and the UK public sector.

iomart's employees help enable any size of business and organisations to operate their online data and IT environments safely and securely. Our technical staff are experts in public, private and hybrid cloud solutions - including AWS and Microsoft Azure – as well as data centre and network engineering. iomart owns and operates a network of UK data centres connected by a high capacity private fibre network and backed by 24/7 technical support.

iomart Group plc is delighted to offer this opportunity to join one of the UK's leading managed hosting companies.

Description

This is an exciting opportunity to join the iomart Team as a front-end web developer. You will be working alongside other developers, designers and marketers to develop and improve our group web and ecommerce sites.

We expect you to have a good working knowledge of HTML, CSS, JavaScript and jQuery and all things online. A creative streak isn't essential, but would be advantageous. Part of your role will be to use analytics and management information to interpret user behaviour and use your skills to improve the customer journey online.

The successful applicant will be someone who is enthusiastic, highly motivated, has a can-do attitude and can hit the ground running.

Skills and Experience Required

Essential

- At least 1 year of web design/development experience or exceptional graduate
- Mastery of HTML5 & CSS3
- Good working knowledge of Javascript and jQuery
- Strong understanding of industry best practices including building responsive, accessible websites which function well across all devices and browsers
- Understanding of SEO principles
- Experience with PHP/MySQL

Advantageous

- Experience with Adobe Photoshop/Illustrator
- Experience with Wordpress (especially developing/modifying themes)
- Experience with version control
- Experience working with JSON APIs

To be successful in this role, you will also need to demonstrate

- That you're a self-starter and also good at working in a team sharing ideas
- Excellent written and verbal communication skills
- An eye for detail and great organisational skills
- Ability to work within a fast paced environment on multiple projects concurrently
- Excellent attention to detail and appreciation of user centred design

What do we offer in return?

- We'll shout you to lunch once a month
- ½ day off on your Birthday
- Long service benefits
- Breakfast on us every day, including a hot roll on Fridays
- Snacks, drinks and fruit all day, everyday
- Pension
- Free onsite car parking
- Share save and childcare voucher schemes
- Supported training and access to an online training portal 24/7

Training and Development

As you can gather, we have a relaxed and friendly working environment, but don't be fooled, you will be working with some of the country's best talent and greatest technical experts. We want our people to thrive, prosper and to leave work every day feeling valued and that they have made a difference. Talented, motivated and creative people lie at the heart of our success so we invest heavily in our people and their professional and personal development through our online training portal and Management and Leadership Development Programme.

****Please note that successful applicants must have the right to work in the UK by the start of their employment. We do not sponsor work visas****
