

C# .Net Developer - Top 3 Managed Cloud Computing Company

Salary: £35,000 – £55,000 DOE

About us

There has never been a more exciting time to become part of the iomart family, is it time for you to join us?

Currently in our 21st year, the iomart Group continues to go from strength to strength. Within the last 12 months we have reached record numbers in both revenue and headcount, achieving annual revenue of £100 million for the first time since our conception and growing our team to over 400 employees. But we're not finished yet. Over the next five years we have ambitious plans to double the size of our business, increasing our annual revenue to £200 million, and we need the best talent the industry has to offer to help us achieve this.

About the C#.Net Developer role:

We are currently looking for an experienced C#.Net Developer to join our Development team in Glasgow.

As a C#.Net Developer within iomart you will be responsible for building functional and intuitive user interfaces for our customers. Working on both web and client applications, you will build automated systems which integrate with platforms across our multiple datacentres. Through liaising with internal stakeholders you will also gain an understanding of individual customer requirements, and provide the best possible solution to meet their needs. Within the role you will also be responsible for writing technical documentation and undertaking testing.

Working as a C#.Net Developer within iomart you will also be exposed to a range of web frontend and technical backend systems which are involved in the automation and deployment of infrastructure, both physical and virtual, and will utilise these resources to build a unique customer experience.

If you have a strong interest in internet technologies and are looking to develop new skills and further your career this could be the role for you.

The ideal candidate for the C#.Net Developer role will have/be:

- Strong programming skills in the following:-
 - C# .Net web applications and client applications
 - ASP .Net
 - MS SQL
 - T-SQL
 - API development and integration (RESTful, SOAP)
 - Use of Visual Studio
 - Test Driven Development
- Working knowledge of the following:-
 - HTML, Javascript, CSS
 - Source Control (Git/CVS/SVN)
 - Unit Testing
 - Object oriented programming (OOP)
- A strong interest in DevOps and automation as well as building functional and intuitive user interfaces
- A basic understanding of, or a keen interest to learn, server hosting platforms, cloud platforms and networks

What we can offer you:

- Exposure and access to cutting-edge technology as well as the opportunity to work alongside like-minded technical enthusiasts
- Supported training and development to help you progress within your career
- Competitive salary
- Holiday Trading Scheme – buy or sell part of your annual leave allowance
- Travel Loans - unsecured interest free travel loans to assist employees
- ShareSave/SAYE – buy shares in the company at a discounted rate
- Day off on your Birthday
- Long service benefits – additional annual leave and access to private healthcare ☑ Snacks, drinks and fruit all day every day
- Breakfast on us every day including a hot roll on Fridays
- Lunch on us once a month

A bit more about us:

iomart is one of the leading providers of cloud computing and managed hosting. Headquartered in Glasgow, iomart employs over 400 talented staff in offices and datacentres across the UK. Originally founded in 1998, it is listed on the London Stock Exchange and specialises in delivering cloud consultancy, facilitation and digital transformation to ISVs, SMEs, enterprises and the UK public sector.
