

Job Title: Infrastructure Engineer**Salary: £35,000 to £40,000****About us:**

There has never been a more exciting time to become part of the iomart family, is it time for you to join us?

Currently in our 22nd year, the iomart Group continues to go from strength to strength. Within the last 12 months we have reached record numbers in both revenue and headcount, achieving annual revenue of £100 million for the first time since our conception and growing our team to over 400 employees. But we're not finished yet. Over the next five years we have ambitious plans to double the size of our business, increasing our annual revenue to £200 million, and we need the best talent the industry has to offer to help us achieve this.

About the Infrastructure Engineer role:

You will be part of a team of technical experts delivering, managing and developing managed hosting services 24/7 from infrastructure through to operating systems. The role will require you to be responsible for assisting with the technical delivery of all iomart managed hosting customers and product development. You will be managing systems to ensure 100% uptime for virtualisation systems and working closely with the team manager to ensure that we maintain 100% uptime for our customers. You will liaise with internal/external customers to understand technical requirements and resolve issues as quickly as possible and with minimum customer impact. You will also maintain our backups systems, which include Avamar Data Domain and Cohesity systems and assist with management of storage systems.

The ideal candidate for the Infrastructure Engineer role will have experience of:

- VCP5/6 or relevant experience
- Strong technical background: VMware virtualisation
- Experience of Avamar, Data domain and Cohesity
- Strong understanding of the technologies and challenges in growing small/medium virtualization platforms
- Experience of P2V technologies
- Experience of managing infrastructure/technical services in a hosted environment
- Excellent written and verbal communication skills

The following knowledge, experience and skills are advantageous although not essential:

- EMC products including VMAX, VNX, VNX2, xtremIO, Recoverpoint
- Powershell / PowerCLI Scripting

What we can offer you:

- Exposure and access to cutting-edge technology as well as the opportunity to work alongside like-minded technical enthusiasts
- Flexible Benefits scheme allowing you to select the benefits that suit your needs
- Supported training and development to help you progress within your career
- Competitive salary
- Holiday Trading Scheme – buy or sell part of your annual leave allowance
- Travel Loans - unsecured interest free travel loans to assist employees

- ShareSave/SAYE – buy shares in the company at a discounted rate
- Day off in your Birthday Month
- Long service benefits – additional annual leave and access to private healthcare
- Snacks, drinks and fruit all day every day
- Breakfast on us every day including a hot roll on Fridays
- Lunch on us once a month

A bit more about us:

iomart is one of the leading providers of cloud computing and managed hosting. Headquartered in Glasgow, iomart employs over 400 talented staff in offices and datacentres across the UK. Originally founded in 1998, it is listed on the London Stock Exchange and specialises in delivering cloud consultancy, facilitation and digital transformation to ISVs, SMEs, enterprises and the UK public sector.
